| 1  | Identification of the preparation and the supplying Company | <b>AF Glue Pad For Ephestia/Plodia- Stored Product Moths</b><br><br>Killgerm Chemicals Ltd,<br>Denholme Drive, Ossett, West Yorkshire, WF5 9NA.<br>Tel: +44 (0) 1924 268450 Fax: + 44 (0) 1924 265033<br>Email: <a href="mailto:technical@killgerm.com">technical@killgerm.com</a><br>Emergency telephones. Poisons Information Centre 13 11 26.<br>Garrards Pty Ltd Head Office – 07 3881 1693 (office hours) |   |
| 2  | Hazards identification                                      | NOT CLASSIFIED   |   |
| 3  | Composition and information on ingredients                  | Product is not a formulated pesticide. It consists of an Attractive adhesive matrix on a white PET/Cardboard/PET backing layer, of dimension 58mm x 78mm. The attractant in these glue pads is pheromone based for both Ephestia species and Plodia species.   |   |
| 4  | First Aid measures  | Ingestion:   | Low order of toxicity. Seek medical attention.  |
|    |   | Inhalation:  | Low order of toxicity. Seek medical attention.  |
|    |   | Skin contact:  | Remove pad and wash with soapy water. If irritation persists seek medical attention.                                    |
|    |   | Eye contact:   | Irritant -as a foreign body- remove and irrigate with water.  |
|    |   | Advice to doctor:  | Styrene/butadiene copolymer and pheromone on a PET backing layer  |
| 5  | Fire-fighting measures                                      | Use water, dry chemical, or carbon dioxide fire extinguishers.   |   |
| 6  | Accidental release measures                                 | Sweep up any debris and dispose of safely – see paragraph 13.  |   |
| 7  | Handling and storage  | Precautions in use:  | Avoid touching the glue when placing the glue pad in the insect monitor station. Wash hands after handling.             |
|    |   | Storage and transport precautions:   | Store in cool dry conditions.   |
| 8  | Exposure and personal protection                            | No special personal protection is required other than that required for normal personal and industrial hygiene practices.  |   |
| 9  | Physical and chemical properties                            | Appearance:  | Flat, white PET/Cardboard/PET insert covered with attractant-in-adhesive matrix excepting all round 5mm uncoated border |
|    |   | Flammability:  | Will burn   |
|    |   | Solubility:  | Not soluble   |
|    |   | Odour:   | No odour  |
| 10 | Stability and reactivity                                    | Product is stable and not reactive.  |   |
| 11 | Toxicological information                                   | Routes of entry/symptoms of contact:<br>Nature of this product renders severe contact unlikely. Low order of toxicity based on components present.   |   |
| 12 | Ecological information                                      | None established. Ecological problems unlikely.  |   |
| 13 | Disposal considerations                                     | Dispose of safely. Place used traps in sealed bags for disposal.   |   |
| 14 | Transport information                                       | Not classified for transport.  |   |
| 15 | Regulatory information                                      | None Applicable  |   |
| 16 | Other information   | Use in compliance with product instructions.   |   |
